01 · EXECUTIVE PROFILE

Technical founder and CEO of **Zynex Labs S.A.S.**, a registered software & blockchain company (est. 2024) delivering AI, Web3, and enterprise systems for LATAM and global clients. Hands-on across the full stack — from **smart-contract protocol design** (escrow & dispute resolution deployed on Base Sepolia) to **AI automation**, product, and client operations. Led public-sector Web3 adoption with the **Alcaldía de Santiago de Cali** (CaliCoins) and co-built the **ETH Cali** community stack: non-custodial wallets, NFT marketplaces with stablecoin settlement, and AI-powered community infrastructure. All code and contracts are **public and verifiable on GitHub**. Fluent in Spanish and English; **willing to relocate to Asia long-term**.

02 · CORE COMPETENCIES

LEADERSHIP & OPERATIONS

Company Building 0 → 1 · Business Strategy & Go-to-Market · Business Development & Partnerships · Fundraising & Investor Relations · Tokenomics & Token Launch Strategy · Treasury & Multi-Sig Operations · Compliance Readiness (KYC/AML, MiCA, CIIU-registered entity) · Community & DAO Governance · Team Building & Remote Operations · AI Strategy & AI-Agent Operations

TECHNICAL & PROTOCOL

Protocol & Product Design (escrow, payments, NFT markets) · Smart Contracts: Solidity · Foundry/Forge · OpenZeppelin · DeFi & Stablecoin Payments (USDT/USDC, Circle Programmable Wallets) · Non-Custodial Wallet Infrastructure (Privy, gas sponsorship, ZKPassport) · Cross-Chain & L2 (Base, Polygon, Arbitrum, Optimism) · Full-Stack: Next.js · TypeScript · Python · Node.js · AI/LLM Integration & Automation (LangChain, OpenAI, multi-agent pipelines) · Cloud & DevOps (AWS, Docker, CI/CD, Vercel)

03 · EXPERIENCE

Founder & CEO — Zynex Labs S.A.S.

2024 – Present · Cali, Colombia

Registered software & blockchain company · 5 service lines: AI & Automation, Software, Blockchain & Web3, Cloud & DevOps, UI/UX & Product

- Founded and lead the company end-to-end: strategy, operating model, hiring, client acquisition, and delivery methodology (Discovery → Architecture → Build → Operate).
- Designed and deployed an **on-chain escrow & dispute-resolution protocol** — EscrowFactory, EscrowInstance (states: created, active, completed, expired, dispute, resolved; fee & treasury mechanics) and DisputeModule — on **Base Sepolia (chain 84532)**, built with Solidity + Foundry and OpenZeppelin (SafeERC20, ReentrancyGuard). Contracts verifiable at 0x5F737b... · 0x7E29A0... · 0x1725cd...
- Built the **AI practice**: LLM integration & fine-tuning, multi-agent autonomous pipelines, intelligent process automation, and predictive analytics for enterprise and fintech clients.
- Led Web3 product infrastructure for LATAM SMEs: cross-chain payment rails, non-custodial wallet UX (Privy auth, native gas sponsorship, ZKPassport personhood), and NFT marketplaces with stablecoin settlement via Circle Programmable Wallets (USDC).
- Client results across delivered platforms (company-reported): reporting time-to-insight reduced from 48h to <4 min; compliance reporting from 3 weeks to 4 hours; smart-contract audit with zero critical findings.

Founder — ETH Cali Ecosystem Products

2025 – Present · Cali, Colombia

Open community building the Ethereum ecosystem in Cali (ethcali.org)

- Led product design and engineering of the **ETH Cali Wallet**: login by email/passkey via Privy, embedded non-custodial wallets, native gas sponsorship, ZKPassport personhood verification, multi-network support (Base, Ethereum, Optimism, Unichain).
- Built **Hackmoney**, a decentralized auction platform for real-estate NFTs: live bidding, admin dashboard, and USDC settlement through Circle Programmable Wallets (email-OTP wallets).
- Launched community infrastructure: AI-powered Telegram bot with real-time crypto pricing (CoinMarketCap API) and event/commerce tooling for the local Ethereum community.

Web3 Developer — CaliCoins · Alcaldía de Santiago de Cali

2024 · Project · Cali, Colombia

Cryptocurrency payment application for city events — public-sector project

- Delivered a Web3 payment app enabling crypto payments and rewards at municipal events: QR-based transfers via MetaMask, smart-contract-backed transactions, and digital wallet integration.
 - Coordinated with municipal stakeholders and event organizers; built an intuitive platform for organizers and attendees.
- Web3

Digital Transformation

04 · OPEN SOURCE & VERIFICATION

✓

27 public repositories on GitHub (github.com/DevJhonnTorres) — protocol code, contracts, and products fully auditable. Deployed contract addresses verifiable on the Base Sepolia explorer (chain 84532). No private forks, no hidden tokens, no exit-style mechanics — all business code public since 2024.

05 · EDUCATION

2023 – Present Systems Engineering (B.Eng.) Universidad Santiago de Cali	2021 – 2023 Technician in Audio & Video Equipment Maintenance SENA
2021 – 2023 Technician in Electronics SENA	2018 – 2023 High School Diploma Colegio Comfandi El Prado

06 · LANGUAGES

► Spanish — Native ► English — Professional working proficiency

07 · LEADERSHIP & COMMUNITY

- Founder, ETH Cali community products ► Rotaract Cali Norte ► Public-sector stakeholder management
- Remote & international collaboration
